

# Targeted Brownfield Assessments

## Free Assessments

Ohio EPA uses funding provided by U.S. EPA to provide in-kind services at brownfield properties for local

Through this grant, Ohio EPA's in-house field staff is able to provide environmental research and field screening at brownfield sites in Ohio's communities at no cost to them.

This gives local governments and prospective purchasers a better understanding of any potential contamination

**BROWNFIELDS** are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment.

## Site Assessment & Brownfield Revitalization Program
