OHIO EPA - DSW-CO
122 SOUTH FRONT ST
COLUMBUS, OH 43216
Attn: Jo Hodanbosi

Dear Training Provider:

We have received the contact hour course approval application(s) you have submitted. The application(s) have been reviewed and approved. The course number(s) and contact hours will remain approved as long as the dates and locations of the training are submitted prior to, or within thirty (30) days of each training event. If no additional training sessions are submitted, the course approval will expire three years after the last training date submitted.

Training providers are required to maintain the following records for each approved training session for three years.

- Date(s) of training
- Names of individuals that attended the training
- The category (e.g. Wastewater or Water) and certification number for the attendee
- Length of the session
- Course approval number and title
- The instructor(s) name
- The organization sponsoring the training

Please note, Ohio EPA has modified it's course numbering system. Courses approved beginning on January 1, 2007 and thereafter, will have a course approval number with three distinct portions (OEPA-B000000-OM). The first portion indicates that Ohio EPA is the organization that has approved the course. The middle portion indicates the unique identity of the course. Finally, the last portion of the number will identify the subject matter of the course (OM= operation and maintenance or X=anything other than O&M).

If you have any questions or need additional information, please contact the Certification Unit at 1-866-411-OPCT (6728) or e-mail opcert@epa.state.oh.us. Course information and all approved courses are available on the Operator Certification web page at www.epa.state.oh.us/ddagw/opcert.html.

Sincerely,

Scott J. Nally
Director
