Ohio EPA held a public hearing in Steubenville, OH on April 3, 2012 regarding the revisions to the 1-hour sulfur dioxide national ambient air quality standard designation recommendations. This document summarizes the comments and questions received at the public hearing and during the associated comment period, which ended on April 3, 2012. Ohio EPA reviewed and considered all comments received during the public comment period.

By law, Ohio EPA has authority to consider specific issues related to protection of the environment and public health.

In an effort to help you review this document, the questions are grouped by topic and organized in a consistent format. The name of the commenter follows the comment in parentheses.

Response 1: No comments were received and no testimony was presented at the public hearing. As a result, no changes were made to the draft document.
