

**STAGE II VAPOR CONTROL REQUIREMENTS FOR CLEVELAND-AKRON AREA (ASHTABULA, CUYAHOGA, GEAUGA, LAKE, LORAIN, MEDINA, PORTAGE, AND SUMMIT COUNTIES)**

| CATEGORY  |        | AVERAGE GASOLINE THROUGHPUT (gal/mo) * | STATUS UNDER OAC RULE 3745-21-09(DDD) | STAGE II COMPLIANCE DEADLINE UNDER OAC RULE 3745-21-04(C)(64)                                 |
|---|--------|--|---------------------------------------|---|
| non-ISBM  |        | < 10,000                               | Exempt                                |   |
|   |        | ≥ 10,000                               | Stage II required                     | if construction of GDF commenced after 11/15/90 and prior to 3/31/93, Stage II by 9/30/93 (a) |
|   |        |  |                                       | if ≥ 100,000 gal/mo, Stage II by 3/31/94 (b)  |
|   |        |  |                                       | if < 100,000 gal/mo, Stage II by 3/31/95 (c)  |
| ISBM, one GDF   |        | < 50,000                               | Exempt                                |   |
|   |        | ≥ 50,000                               | Stage II required                     | Stage II by 3/31/94 (d)   |
| ISBM, multi-GDF   | GDF #1 | < 50,000                               | Exempt                                |   |
|   |        | ≥ 50,000                               | Stage II required                     | Stage II by 3/31/94 (d)   |
|   | GDF #2 | < 50,000                               | Exempt                                |   |
|   |        | ≥ 50,000                               | Stage II required                     | Stage II by 3/31/95 (e)   |
|   | GDF #3 | < 50,000                               | Exempt                                |   |
|   |        | ≥ 50,000                               | Stage II required                     | Stage II by 3/31/96 (f)   |
| Additional GDFs: For GDF #4 use GDF #1 above, for GDF #5 use GDF #2 above, for GDF #6 use GDF #3 above, for GDF #7 use GDF #1 above, etc. This arrangement of GDFs meets the minimum 33%, 66%, and 100% compliance criteria under OAC rule 3745-21-04(C)(64)(b). An ISBM selects the order of the GDFs. |        |  |                                       |   |

\* Throughput based upon the average monthly sales of gasoline during the period from 11/16/90 through 11/15/92. However, if gasoline dispensing was inactive for for any portion of this two-year calculation period, the calculation period may be extended to include a total of 24 months of activity.

- (a) OAC rule 3745-21-04(C)(64)(a)(i)
- (b) OAC rule 3745-21-04(C)(64)(a)(ii)
- (c) OAC rule 3745-21-04(C)(64)(a)(iii)
- (d) OAC rule 3745-21-04(C)(64)(b)(i)
- (e) OAC rule 3745-21-04(C)(64)(b)(ii)
- (f) OAC rule 3745-21-04(C)(64)(b)(iii)
