

3745-580-06

Certification renewal.

(A) Not later than thirty days prior to the expiration of a certification, individuals seeking to maintain certification shall apply for renewal by submitting to Ohio EPA the following:

(1) A renewal application on forms prescribed by the director accompanied by any required fees. The renewal application shall include but not be limited to general contact information, certification number, and continuing education hours.

(2) Documentation supporting the completion of the Ohio EPA certification course required by this chapter or continuing education hours as required by rule 3745-580-08 of the Administrative Code, as applicable.

(B) Criteria for issuance. The director shall not renew certification to an individual unless the following criteria are met:

(1) The individual submits an application in accordance with this rule.

(2) The individual pays the renewal fee in accordance with this rule.

(3) The individual completes the certification course required by this chapter triennially or demonstrates completion of continuing education hours as required by rule 3745-580-08 of the Administrative Code, as applicable.

(C) Applications for renewal received not later than ninety days following the expiration date of the certification may be considered for renewal without retaking the certification course and examination.

(D) Upon expiration of certification, an individual shall not be considered a certified facility operator or certified inspector until certification is obtained in accordance with rule 3745-580-05 of the Administrative Code.
