

Re: Interested Party Review – Residual Waste Rules

Dear Interested Parties:

The Division of Materials and Waste Management is in the process of conducting a review of the regulations for residual waste facilities. This review is being conducted to satisfy requirements mandated by Ohio Revised Code (ORC) Section 119.032 which requires all state agencies to review each of their rules every five years to determine whether or not to continue the rules without change, amend the rules, or rescind the rules. DMWM has reviewed the current effective rules and has made the preliminary determination that the following rules should be retained without change:

<u>Rule</u>	<u>Title:</u>
3745-30-01	Definitions.
3745-30-02	Applicability.
3745-30-03	Residual waste characterization.
3745-30-04	Residual waste landfill classification.
3745-30-05	Residual waste landfill facility permit to install application.
3745-30-06	Additional criteria for approval of residual solid waste landfill facility permit to install application.
3745-30-07	Residual waste landfill facility construction.
3745-30-08	Ground water monitoring program.
3745-30-09	Final closure of residual waste landfill facilities.
3745-30-10	Post closure care of residual waste landfill facilities.
3745-30-14	Operation of residual waste landfill facilities.
3745-30-15	Variances.

DMWM welcomes interested party comment on these rules and the preliminary determination to retain these rules without change. In the case when interested parties may suggest changes in these rules, DMWM requests that interested parties identify those specific rule requirements, any suggestions or alternatives, as well as provide information quantifying the adverse impacts of the requirement for Agency consideration.
