Re: **County Environmental of Wyandot Landfill, Wyandot County  
Ohio Administrative Code (OAC) Rule 3745-27-10(D)(7)(c)(ii)  
Response to Request to Continue Detection Monitoring**

Dear Mr. Traub:

On April 23, 2010, the Ohio Environmental Protection Agency (Ohio EPA), Division of Solid and Infectious Waste Management (DSIWM), Northwest District Office (NWDO) received a document titled "County Environmental of Wyandot Landfill Wyandot County OAC 3745-27-10(D)(7)(c)(ii) Demonstration for the 2009 Second Semiannual Event for Chloride in Well RW-12 and Chloride in Well BW-1," dated April 22, 2010, for the County Environmental of Wyandot Landfill (Facility). This document was submitted by Eagon and Associates, Inc., on behalf of the owner, and included a demonstration in accordance with OAC Rule 3745-27-10(D)(7)(c)(ii) that the statistically significant increases in chloride at wells RW-12 and BW-1 in samples collected in the November 2 through November 4, 2009 sampling event and in the December 21, 2009, February 11, 2010, and April 8, 2010 resampling events was not the result of impact from the Facility and a request to continue detection monitoring at these wells.

Pursuant to OAC Rule 3745-27-10(D)(7)(c)(ii), the owner or operator may demonstrate that a source other than the sanitary landfill facility caused the contamination, or that the statistically significant change resulted from error in sampling, analysis, or statistical evaluation or from natural variation in ground water quality, and request that the director approve continuation of the detection monitoring program. If the owner or operator does not obtain approval to continue detection monitoring within two hundred ten (210) days from initial sampling, the owner or operator is required to comply with the provisions of OAC Rule 3745-27-10(E) for ground water quality assessment monitoring.

The April 22, 2010, document concluded that the statistically significant changes in chloride at monitoring wells RW-12 and BW-1 were due to natural variation in ground water quality during the November 2 through November 4, 2009 sampling event and in the December 21, 2009, February 11, 2010, and April 8, 2010 resampling events, and not as a result of a release from the Facility.

Ted Strickland, Governor  
Lee Fisher, Lieutenant Governor  
Chris Korleski, Director

Ohio EPA is an Equal Opportunity Employer

Mr. Randy Traub  
Page 2 of 2

The owner/operator has not provided sufficient evidence to demonstrate that the statistically significant increases for chloride at wells RW-12 and BW-1 were due to a source other than the landfill. Therefore, I cannot grant approval to continue the detection monitoring program at the Facility for monitoring wells RW-12 and BW-1. The owner or operator shall comply with the ground water quality assessment program pursuant to OAC Rule 3745-27-10(E).

A detailed account of Ohio EPA's review of the ground water demonstration will be sent to you in separate correspondence.

You are hereby notified that this action of the Director is final and may be appealed to the Environmental Review Appeals Commission pursuant to Section 3745.04 of the Ohio Revised Code. The appeal must be in writing and set forth the action complained of and the grounds upon which the appeal is based. The appeal must be filed with the Commission within thirty (30) days after notice of the Director's action. The appeal must be accompanied by a filing fee of \$70.00, made payable to "Ohio Treasurer Kevin Boyce," which the Commission, in its discretion, may reduce if by affidavit you demonstrate that payment of the full amount of the fee would cause extreme hardship. Notice of the filing of the appeal shall be filed with the Director within three (3) days of filing with the Commission. Ohio EPA requests that a copy of the appeal be served upon the Ohio Attorney General's Office, Environmental Enforcement Section. An appeal may be filed with the Environmental Review Appeals Commission at the following address:

Environmental Review Appeals Commission  
309 South Fourth Street, Room 222  
Columbus, OH 43215

If you have any questions concerning this document, you may contact Jeremy Scoles of Ohio EPA, NWDO at (419) 373-3079.

Sincerely,

Chris Korleski  
Director
