ENTERED DIRECTOR'S JOURNAL

JUL 07 2011

Tim Vandersall  
Countywide Recycling and Disposal Facility (RDF)  
3619 Gracemont Avenue S.W.  
East Sparta, OH 44626

I certify this to be a true and accurate copy of the  
official documents as filed in the records of the Ohio  
Environmental Protection Agency.

**RE: COUNTYWIDE RDF, STARK COUNTY  
OAC RULE 3745-27-10(C)(7)(g) APPROVAL**

Dear Mr. Vandersall:

By: Dmytro Lassiter Date: 7-7-11

The Ohio Environmental Protection Agency (Ohio EPA) Division of Materials and Waste Management (DMWM) Northeast District Office (NEDO) received a document from Countywide RDF (Facility) titled *Statistical Analysis Program for Ground Water Quality Monitoring Revision 7*. It is dated June 2011 and was received at NEDO on June 15, 2011.

The revised document was submitted to Ohio EPA as an Ohio Administrative Code (OAC) Rule 3745-27-10(C)(7)(g) request to update background data at the Facility's ground water monitoring wells. Historically, the statistical analysis of ground water monitoring data acquired at ground water monitoring wells MW-31A, MW-101A, MW-102A, MW-103A, MW-105A, MW-109A, MW-110A, MW-113A, MW-114A, MW-115, MW-116, MW-116A, MW-117A, MW-121, and MW-121A has previously indicated the presence of statistically significant differences for various parameters. Upon further scrutiny of the data and pursuant to OAC Rule 3745-27-10(D)(7)(c)(ii), the Facility has demonstrated that an alternate source (natural/spatial variability) was responsible for the initial statistically significant differences and that the initial statistically significant differences were, in fact, false positives for wells MW-31A, MW-101A, MW-102A, MW-103A, MW-105A, MW-109A, MW-110A, MW-113A, MW-114A, MW-115, MW-116, MW-116A, MW-117A, MW-121, and MW-121A.

Pursuant to Ohio Administrative Code (OAC) Rule 3745-27-10(C)(7)(g), background data can only be added in blocks of data resulting from the analysis of four or more statistically independent samples after the data have been statistically compared to current background data and no statistical differences are detected, unless another method is deemed acceptable by the director.

Ohio EPA has reviewed the information provided and concurs that this data can be added to the background data group for wells MW-31A, MW-101A, MW-102A, MW-103A, MW-105A, MW-109A, MW-110A, MW-113A, MW-114A, MW-115, MW-116, MW-116A,

Tim Vandersall

MW-117A, MW-121, and MW-121A. Therefore, pursuant to OAC Rule 3745-27-10(C)(7)(g), the Facility is hereby authorized to update the background database as detailed in the June 2011 document.

You are hereby notified that this action of the Director is final and may be appealed to the Environmental Review Appeals Commission pursuant to ORC Section 3745.04. The appeal must be in writing and set forth the action complained of and the grounds upon which the appeal is based. The appeal must be filed with the commission within thirty (30) days after notice of the Director's action. The appeal must be accompanied by a filing fee of \$70.00, made payable to "Treasurer, State of Ohio." The Commission, in its discretion, may reduce if by affidavit you demonstrate that payment of the full amount of the fee would cause extreme hardship. Notice of the filing of the appeal shall be filed with the Director within three (3) days of filing with the Commission. Ohio EPA requests that a copy of the appeal be served upon the Ohio Attorney General's Office, Environmental Enforcement Section. An appeal may be filed with the Environmental Review Appeals Commission at the following address:

Environmental Review Appeals Commission  
309 South Fourth Street  
Room 222  
Columbus, Ohio 43215
