II. PARTIES BOUND

These Orders shall apply to and be binding upon Respondent and successors in interest liable under Ohio law. No change in the composition of Respondent or the ownership or operation of the water treatment plant ("WTP"), shall in any way alter Respondent's obligations under these Orders.

III. DEFINITIONS

Unless otherwise stated, all terms used in these Orders shall have the same meaning as defined in ORC Chapter 6111. and the rules adopted thereunder.

IV. FINDINGS

The Director of Ohio EPA has determined the following findings:

1. Respondent is a city in northwestern Athens County, and owns and operates a WTP (lime-soda softening plant) at 749 Lake Hope Drive, Nelsonville.
2. The WTP consist of the follow operations which contribute to flow:

<i>Operation</i>	<i>Average Flow</i>
Upflow Clarifier	17,825 gpd
Sedimentation	1,000 gpd

<i>Operation</i>	<i>Average Flow</i>
Recarbonation	20,805 gpy
Backwash Reclaim	590 gpd

3. The WTP has two sludge lagoons in series, with a total approximate capacity of 900,000 gallons at 13.7 gpm. The resulting solids are land applied.
4. Respondent had an Ohio National Pollution Discharge Elimination System Permit No. OI\W00082*DD, ("NPDES permit"), which authorized the discharge of pollutants to the Hocking River, a water of the state.
5. The NPDES permit expired on June 30, 2008, with a renewal application submitted on June 11, 2008.
6. ORC § 6111.04 prohibits any person from causing pollution or causing any sewage, industrial waste or other waste to be placed in any location where they cause pollution to waters of the state, except if such discharges occur in accordance with an NPDES permit issued by the Director.
7. ORC § 6111.07(A) prohibits any person from violating, or failing to perform, any duty imposed by ORC §§ 6111.01 to 6111.08, or violating any order, rule, or term or condition of a permit issued by the Director pursuant to those sections. Each day of violation represents a separate violation.
8. Ohio Administrative Code ("OAC") Rule 3745-33-04(C)(1) provides that an NPDES permit holder who wishes to continue to discharge after the expiration date of its permit must file for permit reissuance at least one hundred eighty days prior to the permit's expiration.
9. Respondent did not make a timely application for a renewal of the NPDES permit and is discharging pollutants to waters of the state without a valid, unexpired permit, which is a violation of ORC §§ 6111.04 and 6111.07.
10. The NPDES permit required that the following parameters be sampled and analyzed, and the results reported to Ohio EPA via Monthly Operating Reports ("MORs"):
 - a. pH;
 - b. Total suspended solids;
 - c. Flow rate;
 - d. Chlorine total residual; and
 - e. Trihalomethane, total.

11. From May, 2000 to April, 2008, Respondent did not submitted MORs, with the exception of the following months: (April 2003 to June 2003 and January 2006 to March 2006), nor did Respondent performed the required sampling and analyses.
12. Respondent's failure to sample, analyze and report the parameters set forth in the NPDES permit is a violation of the NPDES permit and ORC §§ 6111.04 and 6111.07.
13. Respondent has sampled, analyzed and reported the required parameter for April and May, 2008, which report shows no effluent limit violations.
14. The Director has given consideration to, and based his determination on, evidence relating to the technical feasibility and economic reasonableness of complying with these Orders and to evidence relating to conditions calculated to result from compliance with these Orders, and its relation to the benefits to the people of the State to be derived from such compliance in accomplishing the purpose of ORC Chapter 6111.
