

WATERBORNE TRAFFIC PAINT RESOURCES

There are plenty of vendor options that offer waterborne/latex traffic paint. In fact, there is a Federal Specification for waterborne paint (traffic & airfield marking). Many vendors offer this type of paint, see options below.

Federal Specification for Waterborne Paint TRAFFIC AND AIRFIELD MARKING, WATERBORNE can be found at <http://www.wbdg.org/ccb/FEDMIL/ttp1952d.pdf>

Paint options include:

Sherwin-Williams SetFast® Latex Traffic Marking Paint

Are conventional dry (non-heated application) water based paints intended for use in marking parking lots, airports, and roads. Fast drying - High visibility - Glass beads can be added for making reflective markings - Abrasion resistant - **Low VOC - Water cleanup.**
