

## Ohio's Clean Diesel School Bus Fund Grants Awarded, 2006-2016

*School bus retrofit and replacement grants are designed to protect school children and school bus drivers from the harmful pollutants in diesel exhaust. Projects are supported with funding from civil penalties collected by Ohio EPA for violations of Ohio's environmental protection laws, and a federal grant awarded to Ohio EPA from USEPA under the Diesel Emission Reduction Act (DERA). Since this grant program began in 2006, Ohio EPA has awarded 216 grants totaling more than \$9.2 million to replace 44 buses, install pollution control equipment on 2,625 school buses statewide, install idle reduction equipment onto 1,037 buses, and remove more than 117 tons of pollutants from the air.*
