

# CLEANUP ON STIMMEL ROAD A PUBLIC-PRIVATE PARTNERSHIP

Cost sharing of public and private donors expected to greatly reduce cleanup costs

Agreement involves multiple state and local agencies and businesses and various donations of grant money, in-kind services and fee waivers

Approximately 14,000 tons of mostly construction and demolition debris

The 1388 Stimmel Rd. site is Franklin County's largest illegal dump.

Mountain of waste stretches 20 feet high and covers about an acre of land

Waste openly dumped from fall 2009 through spring 2010

An estimated 700 truckloads will remove the waste for proper disposal within the month

The cleanup will abate a nuisance and threat to public health and the environment
