

*** DRAFT – NOT FOR FILING ***

3745-84-04 Format and display of license to operate or maintain a public water system.

- (A) A public water system license or license renewal issued by the director pursuant to this chapter is the property of the state of Ohio.
- (B) A public water system shall return a revoked or suspended license or license with a denied renewal to the director by certified mail within seven days of the effective date of revocation, suspension or denial of renewal.
- (C) A color-coded license, license renewal or sign shall be issued by the director representing the status of the license.
 - (1) A green license or license renewal shall be issued to a public water system licensed without conditions.
 - (2) A yellow license or license renewal shall be issued to a public water system licensed with conditions.
 - (3) A red sign shall be issued to a public water system not licensed due to the denial of a renewal, suspension or revocation of the license.
- (D) The color-coded license, license renewal or sign shall be prominently displayed by the public water system.
 - (1) Community public water systems shall display the license, license renewal or sign indicating absence of a license at the office of the public water system and notify its customers of the status of its license in the Consumer Confidence Report in accordance with Chapter 3745-96 of the Administrative Code.
 - (2) Noncommunity public water systems shall display the license, license renewal or sign indicating absence of a license so as to be clearly visible to the general public and to any person entering the facility.
