**Re: Clarification on Ohio's Recommended Designations for the 2010 1-hour NO₂
Standard**

Dear Administrator Hedman:

I am writing to submit clarification regarding January 5, 2011 submittal of Ohio's designations recommendation for the new nitrogen dioxide (NO₂) supplemental 1-hour primary standard of 100 ppb.

The designation recommendations are based on guidance contained within the February 9, 2010 (75 FR 6474) USEPA's new NO₂ short-term standard. The proposal directs states to submit their recommendations to U.S. EPA, designating all areas in the state as either "attainment," "nonattainment" or "unclassifiable." As indicated in our submittal, all monitoring sites in Ohio are showing attainment of the supplemental 1-hour NO₂ standard. However, additional monitoring networks will go in place in the near future. Therefore, consistent with our recommendation and as indicated in your June 28, 2011 letter to Govern John Kasich, U.S. EPA intends to recommend areas as "unclassifiable/attainment" based on current air quality and will redesignate areas, as appropriate, after additional air quality data is available from the new monitoring network.

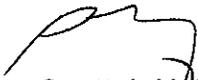

In your June 28, 2011, you stated that U.S. EPA intends to designate Ohio unclassifiable/attainment using the boundaries Ohio recommended to U.S. EPA or revised boundaries that we may provide in response to this letter by August 29, 2011. Ohio EPA does wish to provide additional clarification on the exact boundaries recommended as unclassifiable/attainment. In our December 2010 document entitled

"Ohio's 2010 ~~Nitrogen Dioxide~~ Standard Recommended Designations," we recommended ~~"all Counties in Ohio"~~ be designated unclassifiable. To be clear, we are recommending that ~~each~~ individual county within Ohio be designated as unclassifiable/attainment. We have attached to this letter a specific list of our recommendation at the county level.

I appreciate the opportunity to provide this clarification and will work cooperatively with U.S. EPA Region 5 staff as regarding the actual designations. If you have any questions concerning this submittal, please feel free to contact Jennifer Hunter of the Division of Air Pollution Control at (614) 644-3696.

Please call if you have any questions.

Sincerely,

Scott J. Nally
Director, Ohio EPA

Cc: Robert F. Hodanbosi, Chief Division of Air Pollution Control
