DIRECTOR'S JOURNAL

**BEFORE THE
OHIO ENVIRONMENTAL PROTECTION AGENCY**

In the Matter of:

N-Viro International Corporation : Director's Final Findings
3900 North Summit Street : and Orders
Toledo, Ohio 43606 :

PREAMBLE

It is agreed by the parties hereto as follows:

I. JURISDICTION

These Director's Final Findings and Orders ("Orders") are issued to N-Viro International Corporation ("Respondent"), pursuant to the authority vested in the Director of the Ohio Environmental Protection Agency ("Ohio EPA") under Ohio Revised Code ("ORC") §§ 3704.03 and 3745.01.

II. PARTIES

These Orders shall apply to and be binding upon Respondent and successors in interest liable under Ohio law. No change in ownership of Respondent or of the Facility (as hereinafter defined) shall in any way alter Respondent's obligations under these Orders.

III. DEFINITIONS

Unless otherwise stated, all terms used in these Orders shall have the same meanings as defined in ORC Chapter 3704 and the regulations promulgated thereunder.

IV. FINDINGS

1. Respondent's 3900 North Summit Street operation utilizes patented technologies to stabilize and disinfect municipal bio solids and other organic waste products. Respondent processes sludge from the City of Toledo's wastewater treatment plant.

2. ORC Section 3704.05(C) states, in part, that no person shall violate any term or condition of a permit issued by the Director of Ohio EPA pursuant to ORC Chapter 3704.

3. Permit to install ("PTI") #04-503 governs the installation and operation of emissions unit P001 (kiln dust and sludge blending). PTI#04-503 requires that the exhaust from emissions unit P001 be vented to a scrubber.

I certify this to be a true and accurate copy of the official documents as filed in the records of the Ohio Environmental Protection Agency.

By: Janet Cassiter Date: 3-24-09

4. On July 30, 2008, the City of Toledo, Division of Environmental Services ("TDOES") visited Respondent's facility to follow up on a citizen complaint of odors and dust. During the visit, TDOES discovered that the scrubber serving emissions unit P001 was not operating, in violation of the terms and conditions of the PTI.

5. PTI #04-503 also requires that Respondent record wind speeds and close the doors on the leeward side of the sludge processing/soil storage building when the wind speeds exceed 15 miles per hour.

6. During the July 30, 2008 site visit, Respondent indicated that it had not been maintaining records of wind speeds, in violation of the terms and conditions of PTI #04-503. It could not be determined if Respondent was closing the doors when the wind speeds exceeded 15 miles per hour.

7. On August 5, 2008, TDOES sent a notice of violation to Respondent for the above-mentioned violations and corrective actions have been taken by Respondent.

8. The Director has given consideration to, and based his determination on, evidence relating to the technical feasibility and economic reasonableness of complying with the following Orders and their benefits to the people of the State to be derived from such compliance.

V. ORDERS

The Director hereby issues the following Orders:
