

3745-105-02      **Emission limits.**

[Comment: For dates of non-regulatory government publications, publications of recognized organizations and associations, federal rules, and federal statutory provisions referenced in this rule, see the last paragraph of rule 3745-105-01 of the Administrative Code titled "Reference to materials."]

- (A) Particulate emissions shall not exceed 0.20 pound of particulates per one hundred pounds of waste charged for any pathological waste incinerator with a capacity less than one hundred pounds of waste per hour.
- (B) Particulate emissions shall not exceed 0.10 pound of particulates per one hundred pounds of waste charged for any pathological waste incinerator with a capacity equal to or greater than one hundred pounds of waste per hour but less than one thousand eight hundred pounds of waste per hour.
- (C) Particulate emissions shall not exceed 0.06 pounds of particulate per one hundred pounds of waste charged for any pathological waste incinerator with a capacity equal to or greater than one thousand eight hundred pounds of waste per hour.
- (D) Carbon monoxide emissions from any pathological waste incinerator shall not exceed one hundred parts per million, by volume, on a dry basis, adjusted to seven per cent oxygen in the exhaust stream as an hourly average.
- (E) Visible particulate emissions from any pathological waste incinerator shall not exceed five per cent opacity except for six minutes in any continuous sixty minute period during which opacity shall not exceed ten per cent. Opacity shall be determined by USEPA method 9.
