

RULE SYNOPSIS

Draft rule language for Ohio Administrative Code (OAC) Chapter 3745-25

The Ohio EPA Division of Air Pollution Control (DAPC) has completed draft rule language for the 5 year review of Ambient Air Quality and Emergency Episode Standards rules in OAC Chapter 3745-25.

The suggested changes for this entire rule package are described individually in more detail below.

OAC 3745-25-01 Definitions and reference to materials

- DAPC is suggesting several changes in order to update and provide the most accurate available Federal Register location in the reference materials section of this rule at the time of this review.

OAC rules 3745-25-02 Ambient air quality standards

- Paragraph (A)(4) has been revised to reflect the newest PM 2.5 standards of 12.0 micrograms per cubic meter for the primary annual standard and 15.0 micrograms per cubic meter for the secondary annual standard. Various minor fixes to correct typos and update formatting to comply with Legislative Services commission (LSC) conventions.

OAC rule 3745-25-03 Air pollution emergencies and episode criteria

- Paragraph (E)(5)(a) is being corrected from 1.5 to 1.6 parts per million by volume. This correction was made to match the information in 40 CFR Part 51, Appendix L. Various minor fixes to correct typos and update formatting to comply with LSC conventions.

OAC rule 3745-25-04 Air pollution emergency emission control action programs

- Various minor fixes to correct typos and update formatting to comply with LSC conventions.

OAC rule 3745-25-05 Air pollution emergency orders

- Various minor fixes to correct typos and update formatting to comply with LSC conventions.
