PUBLIC WATER SYSTEM INFORMATION:

PWS Name: _____

PWSID: OH _____

STU Name: _____

STU ID: OH _____

Address: _____

City, State, Zip: _____

County: _____

Reporting Month and Year: _____

REQUIREMENTS FOR 0.5 LOG REMOVAL CREDIT:

Yes ___ No ___ Was the first stage filtration operated per design flow requirements? *

Yes ___ No ___ Did a coagulation step precede the first stage of filtration?

Yes ___ No ___ Did both filtration stages treat 100 % of the plant's flow?

In order to receive the 0.5 log removal credit for the secondary filtration, the first stage of filtration must be preceded by a coagulation step, and both filtration stages (including GAC) must treat the entire plant's flow.

* The first stage of filtration must consistently and reliably achieve at least ninety-nine percent (2 log) removal of Cryptosporidium.

COMMENTS:

I certify under penalty of law that I have personally examined and am familiar with the data submitted in this MOR; that the data in this report is true, accurate and complete; and I am aware that falsification thereof could result in the imposition of fines and penalties including revocation of my certification as a public water system operator.
