History of use:	The property had previously been used as sedimentation ponds by Crescent Brick.				
Chemicals of Concern:	Metals and petroleum.	Applicable Standards:	For commercial and industrial land uses and restricted ground water uses.		
Urban Setting Designation?	N/A	Institutional Control(s)/Environmental Covenant:	An Environmental Covenant limits the property to commercial/industrial use and prohibits the use of potable ground water.		
Remedial Activities:	Remediation consisted of onsite treatment, removal, and disposal of waste pile materials off-site, excavation of materials in impoundment 2 to a depth of 2 feet and placement of those materials into impoundment 1, and installing a clean soil cap over the materials in impoundment 1 and residual waste pile materials.	Engineering Control(s):	Installation of a clean soil cap over the materials in Impoundment 1 and residual waste pile materials and the implementation of a Operations and Maintenance agreement.		
Operation and Maintenance Agreement?	Yes	Risk Mitigation Plan?	N/A		
Proposed Land Use:	Crescent Brick continues to manufacture refractory bricks for the steel industry.
