

FIELD STANDARD OPERATING PROCEDURES

FSOPs used by Ohio EPA – Division of Environmental Response and Revitalization

Updated August 7, 2013

The Division of Environmental Response and Revitalization is currently updating its Field Standard Operating Procedures (FSOPs) for site assessment activities. The [DERR Field Standard Operating Procedures](#) document includes the most recent versions of DERR's FSOPs. This document will be periodically updated as FSOPs are revised or developed. Please note that standard operating procedures for Ohio EPA's mobile laboratory are not included.
