TOTALS (cubic yards)						600,131,065	6,381,040	212,457,779	

Note (1): These proposed expansions/new facilities are still under review in the district office

Note (2): These proposed new facilities have been approved via a final permit. But, they have never been constructed.

Note (3): These proposed expansions/new facilities have been granted draft approvals. But, a final permit is still pending.

Note (4): Less a waste relocation of 405,700 cy also included in the permit. Therefore net airspace permitted is 5,815,340

Note (5): Facility ceased accepting waste in 2004

Note (6): Facility ceased accepting waste in 2005
