OHIO ENVIRONMENTAL PROTECTION AGENCY PERMIT-TO-INSTALL

Application Number: 03-15786
Application Received: April 22, 2003
Permit Fee: \$1,200.00
Permit Fee Balance: \$800.00 (\$1,200.00 - \$400.00)

Applicant: City of Toledo, Division of Solid Waste
Address: 2411 Albion Street
Toledo, Ohio 43606

Facility: Hoffman Road Sanitary Landfill
Location: 3962 Hoffman Road, Sections 7, 8, 17, 18, 19, and 20, Town 9 South,
Range 8 East
Toledo, Ohio 43611

Permit Type: Vertical Expansion & AMDWR Increase

Issuance Date:

Effective Date:

The above-named entity is hereby issued a permit approval (permit-to-install) for the above described source pursuant to Ohio Administrative Code (OAC) Rule 3745-27-02. Issuance of this permit approval does not constitute expressed or implied approval or agreement that, if constructed and/or modified in accordance with the plans, specifications, and/or information accompanying the permit application, the above described source of environmental pollutants will operate in compliance with applicable state and federal laws, rules, and regulations, and does not constitute expressed or implied assurances that, if constructed and/or modified in accordance with those plans, specifications, and/or information accompanying the permit application, the above described source of environmental pollutants will be granted the necessary operating permits and/or licenses. This permit approval is issued subject to the attached conditions which are hereby incorporated and made a part hereof.

Bob Taft, Governor
Jennette Bradley, Lieutenant Governor
Joseph P. Koncelik, Director

Ohio Environmental Protection Agency

Joseph P. Koncelik, Director

PERMIT SUMMARY

This permit approval (PTI Number 03-15786) authorizes the City of Toledo to construct a vertical expansion and to increase the authorized maximum daily waste receipt (AMDWR) at the Hoffman Road Sanitary Landfill (Facility) located at 3962 Hoffman Road, Sections 7, 8, 17, 18, 19, and 20, Town 9 South, Range 8 East, Toledo, Lucas County, Ohio. Currently, the Facility is operating under PTI Number 03-8977 issued November 30, 1999.

On April 22, 2003, Ohio EPA received PTI Application Number 03-15786 from the City of Toledo, which proposed to remove a below grade dike that currently exists between Sections 3 and 4 of the Facility and to increase the AMDWR from 1500 to 1800 tons. The proposed vertical expansion, due to the removal of the below grade dike, will provide an additional disposal capacity of approximately 120,000 cubic yards, which is equivalent to an additional disposal service life of about 0.7 years based on the recorded 2003 daily gate receipts of the Facility.

The proposed vertical expansion will maintain all existing protective features of PTI Number 03-8977, including a composite (clay/geosynthetic membrane) liner system, a leachate collection and management system, a ground water monitoring system, an explosive gas extraction system, a final closure cap system, and 30 years of post-closure care.

This summary is provided solely for informational purposes and does not constitute a part of, or otherwise affect, this permit approval.

PERMIT CONDITIONS

1. The proposed source shall be constructed in strict accordance with the plans, specifications, and information submitted as a part of the application for this permit to the director. There may be no deviation from the approved plans without the express, written approval of Ohio EPA. Any deviation from the approved plans or the permit conditions may lead to such sanctions and penalties as provided under Ohio law. Approval of these plans does not constitute an assurance that the proposed facilities will operate in compliance with all Ohio laws and regulations. Additional facilities and/or landfill components shall be installed upon orders of Ohio EPA if the proposed municipal solid waste disposal facility is inadequate or

cannot meet applicable standards.

2. The director, or an authorized representative, may enter upon the premises of the above named applicant (permittee) at any reasonable time during construction and operation for the purpose of making inspections, conducting tests, or examining records or reports pertaining to the construction, modification, or installation of the above described source of environmental pollutants (municipal solid waste disposal facility).
3. Issuance of this permit approval does not relieve the permittee of the duty to comply with all applicable federal, state, and local laws, ordinances, and regulations.
4. This permit approval shall apply only to those facilities shown on the plans submitted as part of PTI Application Number 03-15786, received on April 22, 2003, with subsequent revisions received until September 3, 2004.
5. The Facility's AMDWR is hereby established to be 1,800 tons. This supersedes any previously established AMDWR for the Facility.
6. This permit approval may be modified, or alternatively revoked and reissued, to comply with any revisions to OAC Chapter 3745-27 applicable to this municipal solid waste disposal facility.
7. The permittee shall provide for the proper maintenance and operation of the municipal solid waste disposal facility in accordance with the provisions of OAC Chapter 3745-27.
8. Nothing in this permit approval shall be construed to authorize any waiver from the requirements of any applicable federal or state laws or regulations. This permit approval shall not be interpreted to release the permittee from responsibility under Ohio Revised Code (ORC) Chapters 3704, 3714, 3734, or 6111; under the Federal Clean Water Act, the Resource Conservation and Recovery Act, or the Comprehensive Environmental Response, Compensation, and Liability Act; or from other applicable requirements for remedying conditions resulting from any release of contaminants to the environment.
9. This permit approval does not authorize the acceptance of any hazardous or infectious wastes, except for those excluded from hazardous waste or infectious waste regulation by ORC Chapter 3734.
10. This permit approval does not authorize the acceptance of any asbestos or asbestos-containing waste material that is subject to the provisions of NESHAP, 40 CFR Part 61, Subpart M. No such asbestos or asbestos-containing waste material may be accepted without first obtaining the necessary permits from Ohio EPA.

11. Unless specifically superseded by this permit approval, the permittee shall comply with the requirements of all previously issued authorizing documents, including PTI Number 03-8977.
12. Toledo shall not accept more than 1,500 tons of solid waste at the Facility during any calendar day until all necessary authorizations and/or approvals are obtained, including, but not limited to, a permit-to-install modification from Ohio EPA addressing air pollution control concerns.
13. Pursuant to ORC Sections 3745.11(Q) and (V), payment of the solid waste permit-to-install fee balance, in the amount of \$800.00 payable to "Treasurer, State of Ohio," shall be submitted to Ohio EPA, Attn.: Fiscal Administration, P.O. Box 1049, Columbus, Ohio, 43216-1049. The fee balance shall be submitted within 30 days of the effective date of this permit approval. Failure to timely submit the required permit fee balance will result in assessment of late penalties in accordance with ORC Sections 3745.11(Q) and (V).
