In the Matter Of:

Crestline Auto Wrecking, Inc       :            Director's Final Findings  
939 Main Street                    :            and Orders  
Crestline, OH 44827               :            

Respondent

**I. JURISDICTION**

These Director's Final Findings and Orders (“Orders”) are issued to Crestline Auto Wrecking, Inc. (the “Respondent”) pursuant to the authority vested in the Director of the Ohio Environmental Protection Agency (“Ohio EPA”) under Ohio Revised Code (“ORC”) sections 3734.13 and 3734.85.

**II. PARTIES BOUND**

These Orders shall apply to and be binding upon Respondent and successors in interest liable under Ohio law. No change in ownership of the Respondent, or of the Property (as hereinafter defined) owned by the Respondent shall in any way alter Respondent’s obligations under these Orders.

**III. DEFINITIONS**

Unless otherwise stated, all terms used in these Orders shall have the same meaning as defined in ORC Chapter 3734. and the rules promulgated thereunder.

**IV. FINDINGS**

The Director of Ohio EPA has determined the following findings:

1. Respondent is the owner of the 42.28 acre parcel of land located in the city of Crestline, Sandusky Township, Richland County, Ohio, and identified as parcel number 042-31-206-14-000 by the Richland County Auditor (the “Property”).
2. Respondent is a “person” as that term is defined in ORC Section 3734.01 and Ohio Administrative Code (“OAC”) Rule 3745-27-01(P)(3).
3. There are currently an estimated 285,000 scrap tires illegally disposed of on the Property.

4. The Property is neither licensed nor permitted as a solid waste disposal facility in accordance with ORC Chapter 3734. and OAC Chapter 3745-27.
5. OAC Rule 3745-27-01(S)(6) defines "scrap tire" as "a type of solid waste and means any unwanted or discarded tire, regardless of size, that has been removed from its original use."
6. Scrap tires are included in the definition of "solid waste" under OAC Rule 3745-27-01(S)(24).
7. The open dumping of scrap tires is a violation of ORC § 3734.03 and OAC Rule 3745-27-05(C) which respectively state that "[n]o person shall dispose of solid wastes by open burning or open dumping" and "[n]o person shall conduct, permit, or allow open dumping. In the event that open dumping . . . has occurred at a property, the person(s) responsible for the open dumping, the owner of the property, or the person(s) who allow or allowed open dumping to occur, shall promptly remove and dispose or otherwise manage the solid waste in accordance with Chapter 3734. of the Revised Code, and shall submit verification that the solid waste has been properly managed."
8. OAC Rule 3745-27-01(O)(4)(b) defines "open dumping" as " the final deposition of scrap tires on or into the ground at any place other than a scrap tire collection, storage, monofill, monocell, or recovery facility licensed under section 3734.81 of the Revised Code, or at a site or in a manner not specifically identified in division (C)(2), (C)(3), (C)(4), (C)(5), (C)(7), or (C)(10) of section 3734.85 of the Revised Code, or at any licensed solid waste facility if the deposition is not in accordance with Chapters 3745-27 and 3745-37 of the Administrative Code."
9. OAC Rule 3745-27-60(B) provides that storage of scrap tires in any amount outside or inside a building shall be deemed a nuisance, a hazard to public health or safety, or a fire hazard unless the tires are stored in accordance with the standards set forth within OAC Rule 3745-27-60(B)(1) - (8).
10. Scrap tires, if not properly managed, may become a breeding ground for mosquitoes. Mosquitoes are a common disease vector for St. Louis encephalitis, La Crosse encephalitis, Yellow Fever, West Nile Virus and Dengue Fever.
11. On March 5, 2004, Ohio EPA and Mansfield/Ontario/Richland County Health Department ("MORCHD") conducted a joint inspection of the Property and observed the following violations:

  - g. ORC Section 3734.81 for illegally operating a scrap tire facility without a license.

This inspection was documented in an NOV letter from Ohio EPA to Respondent dated August 23, 2005.

18. To date, Respondent has failed to fully comply with the August 16, 2004 Board Order.
19. Given the proximity of Respondent's scrap tire pile to the city of Crestline, public water supplies, sensitive sub-population(s) of a hospital, nursing home and/or school, and the potential that a tire fire could obscure major transportation routes such as U.S. Route 30, and in consideration that the effects of a tire fire could adversely impact waters of the state, the Director has determined that the unlawful accumulation of scrap tires on the Property constitutes a danger to the public health or safety or to the environment.
20. ORC Section 3734.85 provides that, "[i]f the director determines that an accumulation of scrap tires constitutes a danger to the public health or safety or to the environment, he shall issue an order under section 3734.13 of the Revised Code to the person responsible for the accumulation of scrap tires directing that person, within one hundred twenty days after the issuance of the order, to remove the accumulation of scrap tires from the premises on which it is located and transport the tires to a scrap tire storage, monocell, monofill, or recovery facility licensed under section 3734.81 of the Revised Code, to such a facility in another state operating in compliance with the laws of the state in which it is located, or to any other solid waste disposal facility in another state that is operating in compliance with the laws of that state. If the person responsible for causing the accumulation of scrap tires is a person different from the owner of the land on which the accumulation is located, the director may issue such an order to the landowner."

If Ohio EPA does not agree that all obligations have been performed, then Ohio EPA will notify Respondent of the obligations that have not been performed, in which case Respondent shall have an opportunity to address any such deficiencies and seek termination as described above.
