

## Ohio EPA Drafts Prohibitions and Closure Rule

The Division of Solid and Infectious Waste Management (DSIWM) is in the process of conducting a review of the rule governing municipal solid waste landfills. This review is being conducted to satisfy requirements mandated by Ohio Revised Code (ORC) Section 119.032 which requires all state agencies to review each of their rules every five years to determine whether or not to continue the rules without change, amend the rules, or rescind the rules. DSIWM has reviewed and drafted new language for the following rule:

3745-27-20 Prohibitions and closure.

The following is a list of major changes to this rule:

- The changes made to the rule are to comply with the requirements of S.B. 265 and to comply with the requirements of the Legislative Service Commission (LSC).
- No additional changes were made to this rule.
