Subject: LRH-2015-1046-GMR Isolated Wetland Determination

Dear Mr. McKinney:

The Ohio Environmental Protection Agency (Ohio EPA) has been notified by the Huntington District of the U.S. Army Corps of Engineers that isolated wetlands have been delineated on your project site located north of Ohio Route 122, between Atrium Boulevard and Babson Court. If you propose to impact these wetlands, you will first need to fill out an Isolated Wetland Permit application and submit the required information. Once received, Ohio EPA will review your application in accordance with Ohio Revised Code Sections 3745.113 and 6111.02 through 6111.029. The proposed project may be subject to the public notice and public participation requirements of the antidegradation rule.

You can download the necessary applications and supporting documents from the Ohio EPA, Division of Surface Water web page at <http://www.epa.ohio.gov/dsw/401/permitting.aspx>. If you do not have access to the web, you can contact me at the number provided below and I will have the appropriate information sent to you.

Please be advised that before any impacts are imposed on isolated wetlands, you must submit an isolated wetland application and receive an Isolated Wetland Permit. If you have any questions, please contact me at 614-644-2327 or via email at Michael.See@epa.ohio.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Michael See". The signature is fluid and cursive, with a prominent initial "M" and a long, sweeping underline.

Michael See
