614.836.8779
614.836.8795 (FAX) Wetland Ecology Group
Division of Surface Water
4675 Homer-Ohio Lane
Groveport, Ohio 43125

Attendance is limited to one person per organization. Additional persons will be placed on a waiting list and admitted only if space permits.

Applications will be accepted on a first come, first served basis. Note: because of the expected high demand, small class size, and limited number of classes that can be offered, first preference will be given to persons meeting most or all of the course prerequisites. Persons not meeting the prerequisites may be placed on a waiting list and admitted only if space permits.

Please be sure to fill out completely the prerequisites questions on the next page.

**PREREQUISITES FOR ATTENDANCE
WETLAND BIOCRITERIA TRAINING**

Please answer the following questions. Attach additional sheets if necessary.

Yes	No	Partial	<p>I have performed quantitative vegetation surveys within the last two years. Please describe the type of methods you have used and projects where you have utilized them. List any academic or other training in plant ecology or vegetation survey techniques you have had.</p>
Yes	No	Partial	<p>I am a competent Ohio field botanist with a good familiarity with the wetland flora of Ohio. Please describe your botanical background experience; work, academic and personal.</p>
Yes	No	Partial	<p>I have, or will have, projects within the next 12 months where I will be required to collect quantitative data from Ohio wetlands in order to evaluate the quality of a natural wetland or evaluate the performance of a mitigation wetland. Please describe the types of projects.</p>
