Re: Countywide Recycling and Disposal Facility  
March 28, 2007 Director's Final Findings and Orders  
June 2007 Sample Collection Notification

Dear Mr. Gortner:

Countywide Recycling and Disposal Facility (Countywide) hereby submits this notification of sample collection in accordance with Section XIV. "Sampling and Document Availability" of the Director's Final Findings and Orders (Orders) dated March 28, 2007.

The proposed sampling schedule for June 2007 is indicated on Attachment A. The exact number of samples may vary slightly as the total number of samples to be collected will be based on field and laboratory results from May. In addition to the laboratory sampling program, field technicians for Countywide are measuring gas wells for oxygen, temperature, pressure, methane, carbon dioxide, and flow rate on a daily basis. Also, weekly leachate temperature measurements are being obtained.

Very truly yours,

Countywide Recycling and Disposal Facility

Tim Vandersall, P.E.  
General Manager

## Attachment A – Planned Sampling Schedule June 2007

<u>Week</u>	<u>Order Section</u>	<u>Type of Sample</u>	<u>No. of Samples</u>
June 4-8	4.A.7	Gas – CO -Lab	86 <sup>(1)</sup>
	4.A.7	Downhole Temp.	24 <sup>(1)</sup>
	4.A.8	Gas – Misc. - Lab	86 <sup>(1)</sup>
	4.A.8	Gas – Field (draggers)	86 <sup>(1)</sup>
	4.A.9	Leachate – Lab	3 <sup>(2)</sup>
June 11-15	4.A.11	Gas – Misc. – Lab	86 <sup>(1)</sup>
June 18-22	4.A.7	Gas – CO -Lab	86 <sup>(1)</sup>
	4.A.7	Downhole Temp.	24 <sup>(1)</sup>
	4.A.8	Gas – Misc. - Lab	86 <sup>(1)</sup>
	4.A.8	Gas – Field (draggers)	86 <sup>(1)</sup>
	4.A.9	Leachate – Lab	3 <sup>(2)</sup>
	4A.12	Leachate – Lab	3 <sup>(2)</sup>

**Notes:**

1. The total number of samples may vary slightly as the total number of samples to be collected will be based on field and laboratory results from May (if lab results are obtained before sampling begins).
2. Leachate grab samples will be collected at the three leachate collection storage tanks that service Cells 1, 2, 3, 4A, 4B, 5A, 5B, 5C, 5D, and 6A.
