Ohio EPA prepares early stakeholder outreach fact sheets to ensure stakeholders are brought into the review process as early as possible and to obtain additional input and discussion before development of interested party draft rules.

What does OAC rule 3745-114-01 cover?
Ohio Administrative Code (OAC) rule 3745-114-01, “Toxic air contaminants” states that the director may require a permit-to-install, issued in accordance with Chapter 3745-31 of the Administrative Code, for any new or modified air contaminant source that emits a toxic air contaminant as described in the rule and listed in the table of the rule.

Why are these rules being sent out for Early Stakeholder Outreach?
The first step in the rule-making process is for Ohio EPA to identify that a rule needs to be amended, rescinded, or created. In response to EO 2011-01K, Ohio EPA has added an additional step to ensure stakeholders are brought into the rule process as early as possible. This additional interested party notification and request for information will allow for early feedback before the rule language has been developed by the Agency.

What changes are being considered?
This rule is undergoing a periodic (5-year) review as required under Ohio Revised Code (ORC) Section 119.032. Ohio EPA will be performing a full review of the language in this rule and will make changes as necessary.

Who will be regulated by these rules?
This rule specifically applies to new and modified sources of air pollution seeking a permit-to-install in accordance with Chapter 3745-31 of the Administrative Code which emits greater than one ton per year of any compound listed in the table of this rule.

What is the rulemaking schedule?
Upon completion of the Early Stakeholder Outreach portion of this rulemaking, Ohio EPA will make any changes necessary to the rule language and make a draft of the rule language available to the public for a 30-day review.

What input is the Agency seeking?
The following questions may help guide you as you develop your comments.

- Is the general regulatory framework proposed the most appropriate? Should the Agency consider any alternative framework?
- What options are available for improving an identified concept? What options are available for improving the existing rules?

How can I provide input?
The Agency is seeking stakeholder input on the Toxic Air Contaminants Rule. When preparing your comments, be sure to:

- explain your views as clearly as possible;
- describe any assumptions used;
- provide any technical information and/or data used to support your views;
- explain how you arrived at your estimate for potential burdens, benefits or costs;
- provide specific examples to illustrate your views; and
- offer alternatives.

Written comments will be accepted through close of business Friday, May 10, 2019. Please submit input to:

Mr. Paul Braun
Ohio EPA Division of Air Pollution Control
50 W. Town St., Suite 700
PO Box 1049
Columbus, Ohio 43216-1049
(614)644-3134
Paul.braun@epa.ohio.gov

What if I have questions?
These rules can be found on Ohio EPA’s website for electronic downloading at: http://epa.ohio.gov/dapc/regs/3745_114.aspx or contact Mr. Braun (information provided above).
Early Stakeholder Outreach — Toxic Air Contaminants Rule

- Are there considerations the Agency should take into account when updating the existing rules? Are there considerations the Agency should take into account when developing a specific concept?
- Is there any information or data the Agency should be aware of when developing program concepts or rule language?
