

PATH TO SUCCESS

Public Utilities Career Development Program 2080 hours

Next Steps for Your Future Career in Public Service

1. Explore!

Careers in the wastewater field continue to be in high demand. The City of Mason encourages students and parents to visit the below links and discover the various career opportunities in the water and wastewater field:

- Ohio Environmental Protection Agency (Ohio EPA) epa.ohio.gov
- American Water Works Association (AWWA) www.awwa.org
- Ohio Rural Water Association (ORWA) www.ohioruralwater.org
- Ohio Section American Water Works Association (OAWWA) www.oawwa.org
- Ohio Water Environment Association (OWEA) www.ohiowea.org
- Operator Training Committee of Ohio (OTC) www.otco.org
- Water Environment Federation (WEF) www.wef.org
- Ohio Means Jobs www.ohiomeansjobs.com

2. Apply!

As part of the requirement of Mason's career development path, students are required to complete 2080 hours in order to apply for the Class I Waste Water Operator exam. In order to successfully complete this requirement, students will gain necessary experience by serving as an intern for the City of Mason. As an Intern, you will learn the skillset to be a successful Wastewater Plant Operator; setting the stage for future career opportunities. To apply for an intern position for the City of Mason, please visit the following link: www.imaginemason.org/employment/

3. Learn!

The City of Mason is ready to develop you for a successful career in public service. Over the course of your career development path, the City of Mason will strive to create opportunities for you to gain valuable experience and knowledge in the water and wastewater field in order for you to become an attractive candidate to potential employers.

Questions? For more information on the City of Mason's career development program or questions regarding the Public Utilities Department, please contact the City at 513.229.8500.
