State Route 101 ^c	No	No	Yes
U.S. Route 6 ^c	No	No	No
U.S. Route 250 ^c	Yes	No	No
Total area (acres)	9	3%	17
Relative area (percent) ^d	0.5%	0.5%	0.5%

Notes

All areas are reported in acres rounded up to a full acre.

a. The surrogate regulated MS4 area for the city of Sandusky is the municipal incorporation limits.

b. The surrogate regulated MS4 areas for Margaretta and Perkins townships were calculated as the summation of developed land within the 2010 Census urbanized area, which includes township roads. The developed land was defined the four developed land covers (21, 22, 23, and 24) of the 2006 National Land Cover Dataset (MRLC 2006).

c. The surrogate regulated MS4 areas for roadways were calculated as the length of roadway within the 2010 Census urbanized area multiplied by a width of 60 feet.

d. Relative areas are reported in percentage points rounded up to one-half percent.

Table I-5. Non-regulated MS4

TMDL subwatershed		city of Fremont	
TMDL location	Area (acres)	Area (acres)	Relative area (percent)
Green Creek northeast of Fremont at Township Road 239 (U04K01)	2,026,997	165	0.5%
Bark Creek at Kelley Road (County Road 245) (300671)	7,478	1,036	14%
Muskellunge Creek at Oak Harbor Road	27,607	971	4%
Little Muddy Creek at Weickert Road	10,635	10	0.5%

Note: Areas are reported in acres and rounded up to a full acre. Relative areas are reported in percentage points rounded up to one-half percent.
