PREAMBLE

It is agreed by the parties hereto as follows:

I. JURISDICTION

These Director's Final Findings and Orders ("Orders") are issued to Copley CVS, Inc. ("Respondent") pursuant to the authority vested in the Director of the Ohio Environmental Protection Agency ("Ohio EPA") under Ohio Revised Code ("ORC") §§ 6111.03 and 3745.01.

II. PARTIES BOUND

These Orders shall apply to and be binding upon Respondent and successors in interest liable under Ohio law. No change in the composition of Respondent or the ownership or operation of site shall in any way alter Respondent's obligations under these Orders.

III. DEFINITIONS

Unless otherwise stated, all terms used in these Orders shall have the same meaning as defined in ORC Chapter 6111. and the rules promulgated thereunder.

IV. FINDINGS

The Director of Ohio EPA has made the following findings:

1. Respondent, (also known as "CVS, Inc." and "CVS Pharmacy No. 3092"), is a corporation for profit in good standing with the Ohio Secretary of State's Office, and owns and operates a retail pharmacy that was served by a WWTP, located at 1410 South Cleveland-Massillon Road, Copley Township, Summit County, Ohio, ("site"). The WWTP had an average flow of 260 gallons per day and consisted of a 500 gallon trash trap, 1,500 gallon per day extended aeration plant, 500 gallon dosing chamber, 50 square foot subsurface sand filter and a 345 gallon
chlorination/dechlorination tank. The WWTP discharged final effluent to Pigeon Creek via a storm sewer, with flows to Wolf Creek and then to the Tuscarawas River, all constituting "waters of the state."

2. An Ohio National Pollutant Discharge Elimination System ("NPDES") permit, No. 3PR00258*AD, was issued to Respondent on May 18, 2000, effective July 1, 2000, which authorized the discharge.

4. Ohio Administrative Code ("OAC") Rule 3745-33-04(C)(1) provides that an NPDES permit holder who wishes to continue to discharge after the expiration date of its NPDES permit must file for reissuance of the permit at least one hundred eighty days prior to the permit’s expiration.

5. OAC Rule 3745-33-04(C)(2) provides that an NPDES permit shall not be renewed unless the Director determines that the permittee is making satisfactory progress toward the achievement of all applicable limitations and has complied with the terms and conditions of the existing permit.

6. Pursuant to ORC § 6111.04(A), no person shall cause pollution or place or cause to be placed any sewage, sludge, sludge materials, industrial waste, or other wastes in a location where they cause pollution of any waters of the state. Such an action is prohibited under ORC § 6111.04(A) and is declared to be a public nuisance unless the person causing pollution or placing or causing to be placed wastes in a location in which they cause pollution of any waters of the state holds a valid, unexpired permit, or renewal of a permit, governing the causing or placement as provided in ORC §§ 6111.01 to 6111.08 or if the person’s application for renewal of such a permit is pending.

7. Pursuant to ORC § 6111.07(A), no person shall violate or fail to perform any duty imposed by ORC sections 6111.01 to 6111.08 or violate any order, rule, or term or condition of a permit issued or adopted by the Director of Ohio EPA pursuant to those sections. Each day of violation is a separate offense.

8. On at least June 8, 2006, December 18, 2006, and April 30, 2007, Ohio EPA observed that Respondent discharged raw or partially treated sewage from the WWTP which caused pollution of Pigeon Creek, without having a valid unexpired permit. Respondent received notices of these violations by letters dated June 19, 2006 and December 20, 2006.

9. Respondent did not submitted an NPDES permit renewal application and was therefore discharging pollutants to waters of the state in violation of ORC §§ 6111.04 and 6111.07.
10. Respondent did not submitted the Monthly Operating Reports required by the NPDES permit, which omission was a violation of the NPDES permit and ORC § 6111.07.

11. The WWTP was a semi-public disposal system as that term is defined in OAC Rule 3745-33-01(KK).

12. OAC Rule 3745-33-08(B) provides that no NPDES permit shall be issued for a semi-public disposal system whenever the sewage system of a publicly owned treatment works is available and accessible in accordance with ORC § 6117.51.

13. In a December 20, 2006 letter, Respondent was notified that a publicly owned sanitary sewer was available in front of the 1410 South Cleveland-Massillon Road property, and that Respondent was required to properly abandon the WWTP and connect to the sewer as soon as possible.

14. Connection to the sewer was made on or about July 13, 2007.

15. Respondent has properly decommissioned the wastewater treatment plant.

16. The following Orders do not constitute authorization or approval of the construction of any physical structure or facilities, or the modification of any existing treatment works or sewer system. Any such construction or modification is subject to the permit to install requirement of ORC §§ 6111.44 and 6111.45 and OAC Chapter Rule 3745-42.

17. The Director has given consideration to, and based his determination on, evidence relating to the technical feasibility and economic reasonableness of complying with these Orders and to evidence relating to conditions calculated to result from compliance with these Orders, and its relation to the benefits to the people of the state to be derived from such compliance in accomplishing the purposes of ORC Chapter 6111.

VI. TERMINATION

Respondent's obligations under these Orders shall terminate when Respondent certifies in writing and demonstrates to the satisfaction of Ohio EPA that Respondent has performed all obligations under these Orders and Ohio EPA’s Division of Surface Water acknowledges, in writing, the termination of these Orders.
