BEFORE THE
OHIO ENVIRONMENTAL PROTECTION AGENCY

In the Matter of:

County of Summit, Ohio
175 Main Street
Akron, Ohio 44308

Director's Final
Findings and Orders

PREAMBLE

It is agreed by the parties hereto as follows:

I. JURISDICTION

These Director's Final Findings and Orders ("Orders") are issued to the County of Summit, Ohio ("Respondent") pursuant to the authority vested in the Director of the Ohio Environmental Protection Agency ("Ohio EPA") under Ohio Revised Code ("ORC") §§ 6111.03 and 3745.01.

II. PARTIES BOUND

These Orders shall apply to and be binding upon Respondent and successors in interest liable under Ohio law.

III. DEFINITIONS

Unless otherwise stated, all terms used in these Orders shall have the same meaning as defined in ORC Chapter 6111. and the rules promulgated thereunder.

IV. FINDINGS

The Director of Ohio EPA has determined the following findings:

1. Respondent owns and operates 12 waste water treatment plants countywide.

2. On December 11, 2003, Ohio EPA received a complaint pursuant to ORC § 3745.08. The complaint alleged that the Respondent had pumped sanitary sewage into the storm sewers in the City of Stow, resulting in a sewage release into waters of the State as well as residential properties in

violation of ORC Chapter 6111.

3. Ohio EPA reviewed the complaint referenced in Finding No. 2. of these Orders and by letter dated January 2, 2004 informed the complainant that the complaint met the requirements under ORC § 3745.08. Accordingly, Ohio EPA commenced an investigation into the complaint to determine whether violations, as alleged, had occurred, were occurring or would occur. Ohio EPA's investigation included a discussion of the complaint in the form of a meeting with the Respondent on January 14, 2004.

4. During the meeting referenced in Finding No. 3. of these Orders, Respondent stated that it did pump sewage from the sanitary sewers to the storm sewers at the intersection of Kenneth Road and Samira Drive in the City of Stow on July 21, 2003, July 27, 2003, and January 4, 2004. Respondent claimed that the pumping was done to prevent sewage backups in residents' basements. Respondent also claimed all bypasses were reported to Ohio EPA. Also, Respondent stated that some sections of the sanitary sewer may need to be repaired or replaced, but that the main reason for the surcharged sanitary sewer appears to be homes' foundation drains being illegally connected to the sanitary sewer.

5. The sanitary sewer overflows/bypasses which occurred on July 21, 2003, July 27, 2003 and January 4, 2004 are unpermitted discharges to waters of the state. Discharges to waters of the state without a valid permit constitute violations of ORC §§ 6111.04 and 6111.07.

6. On February 26, 2004, Respondent submitted to Ohio EPA a preliminary schedule for improvements to address the overflows.

7. The Director has given consideration to, and based his determination on, evidence relating to the technical feasibility and economic reasonableness of complying with these Orders and to evidence relating to conditions calculated to result from compliance with these Orders, and its relation to the benefits to the people of the State to be derived from such compliance in accomplishing the purposes of ORC Chapter 6111.

V. ORDERS
