Requests to Sub-Contract  
Section 319(h) Grants Program (9/18 version)

Following are the requirements for section 319(h) recipients when subcontracting for services using either 319 federal grant or matching funds. Item #8 of the section 319(h) agreement states: “For contracts which total more than $10,000 per subcontractor, Subrecipients may not subcontract its duties and obligation hereunder without the prior written, signed consent of the Grant Administrator.”

Instructions:  The selection of a vendor for ANY subcontract using section 319(h) federal or matching funds MUST be done in accordance with your organization’s written procurement policy, procedures or guidelines.

Once you have selected a potential sub-contractor AND the proposed contract exceeds $10,000, a formal written request to enter into sub-contract MUST be submitted to Ohio EPA. This request must include the information below and must be signed by the authorized local official designated on the agreement:

1. A brief description of the process you employed for soliciting bids1 (if applicable) and selecting the proposed vendor with whom you are requesting to sub-contract.

2. A copy of your proposed subcontract agreement, which MUST include the following:
   - Name, address and Tax Identification Number of the vendor
   - Total amount of the contract, including a breakdown of federal and matching fund amounts.
   - A specific listing of all items and/or services to be provided
   - An itemized cost for items and/or services being purchased (for example: 40 hours of project design services at approximately $50/hour)
   - If the project involves construction and/or stream restoration work, a description or map of the location where work will be done is required.

Requests to sub-contract should be submitted to provide Ohio EPA with at least TEN WORKING days to review and respond. Execution of sub-contracts may NOT occur until such time that formal notification of approval is received from the Grants Administrator.

If you have any questions regarding this matter, please feel free to contact Martha Spurbeck, 319 Grants Administrator at 614-644-2869 or John Mathews, NPS Program Manager at 614-265-6685.

---

1 Depending on your organization’s procurement policies, procedures or guidelines, competitive bidding may not be required. If the vendor is selected without using competitive bidding, please describe why competitive bidding was waived. Also, if a sub-contract is for a project partner such as a university, who is providing in-kind services as match, no competitive bidding is required. If in-kind services provided by a partner exceed $10,000, a sub-contract agreement IS REQUIRED.
