

DEPARTMENT OF HOMELAND SECURITY

Coast Guard

33 CFR Part 165

[Docket No. USCG–2016–0415]

Safety Zones; Captain of the Port Boston Fireworks Display Zone, Boston Harbor, Boston, MA

AGENCY: Coast Guard, DHS.

ACTION: Notice of enforcement of regulation.

SUMMARY: The Coast Guard will enforce special local regulations for the Boston Harborfest in Boston Inner Harbor on July 2, 2016, to provide for the safety of life on navigable waterways during the fireworks. Our regulation for Captain of the Port Boston Fireworks display zone, Boston Harbor, Boston, MA identifies the regulated area for this fireworks display. During the enforcement period, no vessel may transit this regulated area without approval from the Captain of the Port or a designated representative.

DATES: The regulation in 33 CFR 165.119(a)(2) will be enforced Saturday, July 2, 2016 from 9 p.m. to 9:45 p.m.

FOR FURTHER INFORMATION CONTACT: If you have questions about this notice of enforcement, call or email Mr. Mark Cutter, Sector Boston Waterways Management Division, U.S. Coast Guard; telephone 617–223–4000, email Mark.E.Cutter@uscg.mil.

SUPPLEMENTARY INFORMATION: The Coast Guard will enforce special local regulations in 33 CFR 165.119(a)(2) Saturday, July 2, 2016 from 9 p.m. to 9:45 p.m., for the Boston Harborfest in Boston Inner Harbor. This action is being taken to provide for the safety of life on navigable waterways during the fireworks display. Our regulation for Captain of the Port Boston Fireworks display zone, Boston Harbor, Boston, MA, § 165.119(a)(2), specifies the location of the regulated area as all U.S. navigable waters of Boston Inner Harbor within a 700-foot radius of the fireworks barge in approximate position 42°21'41.2" N. 071°02'36.5" W. (NAD 1983), located off of Long Wharf, Boston MA. As specified in § 165.119(e), during the enforcement period, no vessel may transit this regulated area without approval from the Captain of the Port Sector Boston (COTP) or a COTP designated representative.

This notice of enforcement is issued under authority of 33 CFR 165.119 and 5 U.S.C. 552(a). In addition to this notice of enforcement in the **Federal Register**, the Coast Guard plans to

provide notification of this enforcement periods via the Local Notice to Mariners and Broadcast Notice to Mariners.

Dated: June 17, 2016.

C.C. Gelzer,

Captain, U.S. Coast Guard, Captain of the Port Boston.

[FR Doc. 2016–15090 Filed 6–24–16; 8:45 am]

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA–R05–OAR–2016–0276; FRL–9948–19–Region 5]

Determination of Attainment by the Attainment Date; 2008 Ozone National Ambient Air Quality Standards; Cleveland, Ohio and St. Louis, Missouri-Illinois Areas

AGENCY: Environmental Protection Agency (EPA).

ACTION: Direct final rule.

SUMMARY: The Environmental Protection Agency (EPA) is making a determination, under the Clean Air Act (CAA), that the Cleveland, Ohio (OH) and St. Louis, Missouri-Illinois (MO-IL) areas attained the 2008 ozone National Ambient Air Quality Standards (NAAQS), by the applicable attainment date of July 20, 2016. This determination for each area is based on complete, quality-assured and certified ozone monitoring data for 2013–2015.

DATES: This direct final rule will be effective August 26, 2016, unless EPA receives adverse comments by July 27, 2016. If adverse comments are received by EPA for an affected area, EPA will publish a timely withdrawal of the direct final rule for that area in the **Federal Register** informing the public that the rule will not take effect there.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA–R05–OAR–2016–0276 at <http://www.regulations.gov> or via email to Aburano.Douglas@epa.gov. For comments submitted at [Regulations.gov](http://www.Regulations.gov), follow the online instructions for submitting comments. Once submitted, comments cannot be edited or removed from [Regulations.gov](http://www.Regulations.gov). For either manner of submission, EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment.

The written comment is considered the official comment and should include discussion of all points you wish to make. EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.*, on the web, cloud, or other file sharing system). For additional submission methods, please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section. For the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <http://www2.epa.gov/dockets/commenting-epa-dockets>.

FOR FURTHER INFORMATION CONTACT: Kathleen D'Agostino, Environmental Scientist, Attainment Planning and Maintenance Section, Air Programs Branch (AR–18J), Environmental Protection Agency, Region 5, 77 West Jackson Boulevard, Chicago, Illinois 60604, (312) 886–1767, dagostino.kathleen@epa.gov.

Deborah Bredehoft, Air Planning and Development Branch, Environmental Protection Agency, Region 7, 11201 Renner Blvd., Lenexa, Kansas 66219, (913) 551–7164, Bredehoft.Deborah@epa.gov.

SUPPLEMENTARY INFORMATION:

Throughout this document whenever “we,” “us,” or “our” is used, we mean EPA. This supplementary information section is arranged as follows:

- I. Background
- II. How does EPA determine whether an area has attained the 2008 ozone standard?
- III. What action is EPA taking and what is the rationale?
- IV. Statutory and Executive Order Reviews

I. Background

On April 30, 2012, the Cleveland, OH and St. Louis, MO-IL areas were designated as nonattainment for the 2008 ozone NAAQS and were classified as marginal, effective July 20, 2012 (77 FR 30088, May 21, 2012). On March 6, 2015 (80 FR 12264), in the final 2008 ozone NAAQS SIP requirements rule, EPA established an attainment deadline for marginal areas of July 20, 2015.

The CAA section 181(b)(2) requires the EPA to determine, based on an area's ozone design value¹ as of the

¹ An area's ozone design value for the 8-hour ozone NAAQS is the highest 3-year average of the annual fourth-highest daily maximum 8-hour average concentrations of all monitors in the area. To determine whether an area has attained the ozone NAAQS prior to the attainment date, EPA considers the monitor-specific ozone design values in the area for the most recent three years with complete, quality-assured, and certified ozone monitoring data prior to the attainment deadline (or for an earlier 3-year period if the area attains the ozone standard ahead of the attainment deadline).

area's attainment deadline, whether the area has attained the ozone standard by that date. The statute provides a mechanism by which states that meet certain criteria may request and be granted by the EPA Administrator a 1-year extension of an area's attainment deadline.

On May 4, 2016 (81 FR 26697), based on EPA's evaluation and determination that the areas met the attainment date extension criteria of CAA section 181(8)(5), EPA granted the Cleveland and St. Louis areas a 1-year extension of the marginal area attainment date to July 20, 2016.

II. How does EPA determine whether an area has attained the 2008 ozone standard?

Under EPA regulations at 40 CFR part 50, appendix P, the 2008 ozone NAAQS is attained at a site when the 3-year average of the annual fourth highest daily maximum 8-hour average ambient air quality ozone concentration is less than or equal to 0.075 parts per million (ppm). This 3-year average is referred to as the design value. When the design value is less than or equal to 0.075 ppm at each ambient air quality monitoring

site within the area, then the area is deemed to be meeting the NAAQS. The rounding convention under 40 CFR part 50, appendix P, dictates that concentrations shall be reported in ppm to the third decimal place, with additional digits to the right being truncated. Thus, a computed 3-year average ozone concentration of 0.076 ppm is greater than 0.075 ppm and, therefore, over the standard.

EPA's determination of attainment is based upon data that have been collected and quality-assured in accordance with 40 CFR part 58 and recorded in the EPA's Air Quality System database (formerly known as the Aerometric Information Retrieval System). Ambient air quality monitoring data for the 3-year period must meet a data completeness requirement. The ambient air quality monitoring data completeness requirement is met when the average percent of required monitoring days with valid ambient monitoring data is greater than 90 percent, and no single year has less than 75 percent data completeness as determined according to appendix P of part 50.

III. What action is EPA taking and what is the rationale?

EPA is taking this action pursuant to the agency's statutory obligation under CAA section 181(b)(2) to determine whether the Cleveland and St. Louis nonattainment areas have attained the 2008 ozone NAAQS by the applicable attainment date of July 20, 2016. In this action, EPA is making a determination that the Cleveland and St. Louis areas attained the 2008 ozone NAAQS by the applicable deadline of July 20, 2016, based upon complete, quality-assured and certified ozone monitoring data for 2013–2015.²

EPA evaluated data from air quality monitors in the Cleveland and St. Louis areas in order to determine the areas' attainment status as of the applicable attainment date of July 20, 2016. The data were supplied and quality-assured by state and local agencies responsible for monitoring ozone air monitoring networks. Table 1 displays the 2013–2015 design value for each monitor as well as the fourth high daily maximum 8-hour ozone concentration for each of the three years used to calculate the design value.

TABLE 1—ANNUAL 4TH HIGH DAILY MAXIMUM 8-HOUR OZONE CONCENTRATION AND DESIGN VALUE BY MONITOR

All monitoring sites in the Cleveland and St. Louis areas had design values less than 0.075 ppm based on the 2013–2015 monitoring period. Thus, EPA is determining, in accordance with section

181(b)(2)(A) of the CAA and the provisions of the SIP Requirements Rule (40 CFR 51.1103), that these areas attained the standard by the applicable attainment date of July 20, 2016. EPA's

determination is based upon three years of complete, quality-assured and certified data.

We are publishing this action without prior proposal because we view this as

² These determinations of attainment do not constitute a redesignation to attainment.

Redesignations require states to meet a number of additional criteria, including EPA approval of a

state plan to maintain the air quality standard for 10 years after redesignation.

a noncontroversial amendment and anticipate no adverse comments. However, in the proposed rules section of this **Federal Register** publication, we are publishing a separate document that will serve as the proposal to approve each determination if relevant adverse written comments are filed. This rule will be effective August 26, 2016 without further notice unless we receive relevant adverse written comments by July 27, 2016. If we receive such comments, we will withdraw this action, for any affected area, before the effective date by publishing a subsequent document that will withdraw the final action. All public comments received will then be addressed in a subsequent final rule based on the proposed action. EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time. Please note that, if EPA receives adverse comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule, EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment. If we do not receive any comments, this action will be effective August 26, 2016.

IV. Statutory and Executive Order Reviews

Under section 181(b)(2) of the CAA, a determination of attainment is a factual determination based upon air quality considerations. These determinations of attainment would, if finalized, result in the suspension of certain Federal requirements. For that reason, this action:

- Is not a “significant regulatory action” subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);

- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and
- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, this rule does not have tribal implications because it will not have a substantial direct effect on any Indian reservation land or in any other area where EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. Determinations of attainment do not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because a determination of attainment is an action that affects the status of a geographical area and does not impose any new regulatory requirements on tribes, impact any existing sources of air pollution on tribal lands, nor impair the maintenance of ozone national ambient air quality standards in tribal lands.

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by August 26, 2016. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition

for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. Parties with objections to this direct final rule are encouraged to file a comment in response to the parallel notice of proposed rulemaking for this action published in the proposed rules section of this **Federal Register**, rather than file an immediate petition for judicial review of this direct final rule, so that EPA can withdraw this direct final rule and address the comment in the proposed rulemaking. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

Regional Administrator, Region 7.

Part 52, chapter I, title 40 of Code of Federal Regulations is amended as follows:

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

- 1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

- 2. Section 52.726 is amended by adding paragraph (qq) to read as follows:

§ 52.726 Control strategy: Ozone.

* * * * *

(qq) *Determination of attainment.* As required by section 181(b)(2)(A) of the Clean Air Act, EPA has determined that the St. Louis, MO-IL marginal 2008 ozone nonattainment area has attained the NAAQS by the applicable attainment date of July 20, 2016.

- 3. Section 52.1342 is amended by adding paragraph (d) to read as follows:

§ 52.1342 Control strategy: Ozone.

* * * * *

(d) *Determination of attainment.* As required by section 181(b)(2)(A) of the Clean Air Act, EPA has determined that the St. Louis, MO-IL marginal 2008 ozone nonattainment area has attained

the NAAQS by the applicable attainment date of July 20, 2016.

■ 4. Section 52.1885 is amended by adding paragraph (oo) to read as follows:

§ 52.1885 Control strategy: Ozone.

* * * * *

(oo) *Determination of attainment.* As required by section 181(b)(2)(A) of the Clean Air Act, EPA has determined that the Cleveland, OH marginal 2008 ozone nonattainment area has attained the NAAQS by the applicable attainment date of July 20, 2016.

■ 5. Section 52.1892 is amended by adding paragraph (g) to read as follows:

§ 52.1892 Determination of attainment.

* * * * *

(g) As required by section 181(b)(2)(A) of the Clean Air Act, EPA has determined that the Cleveland, OH marginal 2008 ozone nonattainment area has attained the NAAQS by the applicable attainment date of July 20, 2016. This determination is based on complete, quality-assured and certified data for the 3-year period 2013–2015.

BILLING CODE 6560–50–P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA–R05–OAR–2015–0366; FRL–9948–21–Region 5]

Air Plan Approval; Minnesota; Sulfur Dioxide

AGENCY: Environmental Protection Agency (EPA).

ACTION: Direct final rule.

SUMMARY: The Environmental Protection Agency (EPA) is approving a revision to the Minnesota sulfur dioxide (SO₂) State Implementation Plan (SIP) for the Flint Hills Resources, LLC Pine Bend Refinery (FHR) as submitted on May 1, 2015. The revision will consolidate existing permanent and enforceable SO₂ SIP conditions into the facility's joint Title I/Title V SIP document. This action highlights process modifications necessary to meet EPA's Tier 3 gasoline sulfur standards; a comprehensive monitoring strategy to better quantify SO₂ emissions from fuel gas-fired emission units; a new restrictive flaring procedure for refinery process units, and other updates and administrative changes. This revision results in a modeled reduction in SO₂ emissions from FHR and modeled SO₂ ambient air concentrations less than half of the

national ambient air quality standards (NAAQS).

DATES: This direct final rule will be effective August 26, 2016, unless EPA receives adverse comments by July 27, 2016. If adverse comments are received, EPA will publish a timely withdrawal of the direct final rule in the **Federal Register** informing the public that the rule will not take effect.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA–R05–OAR–2015–0366 at <http://www.regulations.gov> or via email to blakley.pamela@epa.gov. For comments submitted at [Regulations.gov](http://www.regulations.gov), follow the online instructions for submitting comments. Once submitted, comments cannot be edited or removed from [Regulations.gov](http://www.regulations.gov). For either manner of submission, EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.* on the Web, cloud, or other file sharing system). For additional submission methods, please contact the person identified in the “For Further Information Contact” section. For the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <http://www2.epa.gov/dockets/commenting-epa-dockets>.

FOR FURTHER INFORMATION CONTACT: Anthony Maietta, Environmental Protection Specialist, Control Strategies Section, Air Programs Branch (AR–18J), Environmental Protection Agency, Region 5, 77 West Jackson Boulevard, Chicago, Illinois 60604, (312) 353–8777, maietta.anthony@epa.gov.

SUPPLEMENTARY INFORMATION: Throughout this document whenever “we,” “us,” or “our” is used, we mean EPA. This supplementary information section is arranged as follows:

- I. What is the background for this action?
 - A. EPA's Tier 3 Gasoline Standards
 - B. Administrative Order and Title I SO₂ SIP Conditions
- II. What is EPA's analysis of the SIP revision?
 - A. EPA's Tier 3 Gasoline Standards
 - B. Administrative Order and Title I SO₂ SIP Conditions
 - C. Miscellaneous Revisions

III. What action is EPA taking?

IV. Incorporation by Reference

V. Statutory and Executive Order Reviews

I. What is the background for this action?

A. EPA's Tier 3 Gasoline Standards

On April 28, 2014 (79 FR 23414 and amended on April 22, 2016, at 81 FR 23641), EPA established more stringent vehicle emissions standards to reduce the sulfur content of gasoline beginning January 1, 2017. The Tier 3 gasoline fuel standards (Tier 3 standards) will reduce both tailpipe and evaporative emissions from both new and existing passenger cars, light-duty trucks, medium-duty passenger vehicles, and some heavy-duty vehicles. This will result in significant reductions in pollutants such as ozone, particulate matter, and air toxics across the country and help state and local agencies in their efforts to attain and maintain health-based NAAQS.

In order to meet the Tier 3 standards, FHR plans to increase its use of hydrotreating to remove sulfur from intermediate fuel products. The increased hydrotreating will also increase the removal of nitrogen. To address the increased removal of nitrogen and sulfur, FHR proposes to install a process to convert gas containing sulfur and nitrogen into a salable, non-hazardous, aqueous liquid fertilizer: ammonium thiosulfate (ATS).

B. Administrative Order and Title I SO₂ SIP Conditions

Minnesota also requested EPA's approval of the transfer of Title I SO₂ SIP conditions from an Administrative Order (Order) into the FHR Title I/Title V SO₂ SIP document. Until 1990, Minnesota Pollution Control Agency (MPCA) had placed SIP control measures in permits issued to culpable sources. In 1990, EPA determined that limits in state-issued permits were not federally enforceable because the permits expired. Subsequently, MPCA then issued permanent Orders to affected sources in nonattainment areas from 1991 to February of 1996.

In 1995, EPA approved into the Minnesota SIP Minnesota's consolidated permitting regulations. (60 FR 21447, May 2, 1995). The consolidated permitting regulations included the term “Title I condition” which was written, in part, to satisfy EPA requirements that SIP control measures remain permanent. A “Title I condition” is defined, in part, as “any condition based on source-specific determination of ambient impacts imposed for the purpose of achieving or maintaining attainment with a national ambient air
